

ADITHYA GOWDA

+91 9741658306 — adithyagowdaadhi9@gmail.com — Bengaluru, Karnataka

Portfolio — LinkedIn — GitHub — LeetCode

SUMMARY

Second-year B.Tech CSE student at JAIN (Deemed-to-be University) with two peer-accessible research publications focused on V2X vehicular safety and firmware self-healing using lightweight transformer models. Experienced in building full-stack AI applications combining computer vision (YOLOv8, MobileNetV2), MERN-stack development, and cloud platforms (AWS, Oracle OCI). Highly motivated learner with a strong passion for research, problem-solving, and developing impactful real-world technology solutions.

EDUCATION

B.Tech CSE — JAIN (Deemed-to-be University), Bengaluru CGPA: 8.0/10 (3rd Sem)	Aug 2024 – Pursuing
Pre-University (Science) — Rural PU College, Kanakapura	2022 – 2024
High School — Jain Public School	2022

TECHNICAL SKILLS

Languages: Intermediate - Python, JavaScript (ES6+), HTML5, CSS3, SQL, C

Frameworks: Beginner - React.js, Node.js, Express.js, TensorFlow, OpenCV, YOLOv8, MobileNetV2

AI/ML: Object Detection, CNNs, V2X Communication, ESP-NOW, LoRaWAN, Haversine, Transformers

Cloud & Tools: AWS, Oracle OCI, Linux, GitHub, Postman, Roboflow, Overleaf (LaTeX)

Core CS: OS, DBMS, Computer Architecture, Networking, Cloud Fundamentals

PROJECTS

RoadRisk AI — AI-Powered Road Safety Analysis Platform (Completed) Live Link

- Built a computer vision platform to detect road accident scenarios with a live ML-powered web dashboard.
- Developed using React.js SPA, Node.js + Express REST API, and Python-Flask ML microservice.
- Implemented real-time heatmap overlays and scenario visualization dashboard using Tailwind CSS.
- Integrated MongoDB for incident logging and designed a custom risk-scoring pipeline.
- ML stack: YOLOv8 detection, MobileNetV2 classification, OpenCV preprocessing.

Airguard — Smart Air Quality Monitoring System (Ongoing)

- IoT-based environmental monitoring platform designed to measure air quality levels and analyze pollution conditions.
- Provides real-time monitoring through a web dashboard for visualization and alerts.

RESEARCH PUBLICATIONS

- **Accident Detection and Alert System: A Collaborative V2X Safety Ecosystem for Smart City Emergency Response** (Zenodo, 2025) [View here](#)
- **Firmware Self-Healing for V2X Networks: A Runtime-Triggered Autonomous Repair Framework Using Lightweight Transformer Models on Resource-Constrained Edge Nodes** (OSF Preprints, 2025) [View here](#)

PROFESSIONAL EXPERIENCE

Project Intern — GlobCred.money Nov 2025 – Dec 2025

- Managed 50+ client inquiries for study-abroad consultations and maintained accurate digital case records.

LEADERSHIP & EXTRACURRICULARS

- **Capgemini Student Ambassador:** Campus outreach and student onboarding for initiatives.
- **LinkedIn Learning Co-Pilot:** Promoted AI learning tools and increased adoption.
- **Student Placement Coordinator:** Coordinated placement drives with 10+ startups and tech companies.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Networking Professional — Oracle
- AWS Cloud Practitioner Essentials — Amazon Web Services
